Sage FAS Barcode Reader: Intermec® CN$_3$

A durable and robust barcode reader:

Implement a complete fixed asset inventory solution by combining FAS Asset Inventory with the Intermec CN3, a rugged barcode reader. The Intermec CN3 enables a mobile workforce to efficiently record and store information about the fixed asset inventory by scanning asset labels and verifying its attributes. This information can then be downloaded into the FAS Asset Inventory database, ensuring that once the data is tracked and updated, it can then be reconciled.

DESCRIPTION	SPECIFICATION
